I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,308,531, granted October 30, 2001 and for which a reissue patent is sought on the invention entitled Hybrid Cycle for the Production of Liquefied Natural Gas

the specification of which

☒ is attached hereto.☐ was filed on _____ as reissue application number _____

and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☒ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

1. Errors in the Specification and Claims made by the U.S. Patent and Trademark Office that have not been corrected by the Office as of the filing of this reissue application.

2. Inventors claimed less than they had a right to claim. The nature of the broadening is that new method and apparatus claims are being submitted that have support in the original specification but were not presented in the original application.
